PROFILE

Hands-on product design leader with 9 years' experience across healthtech, climatetech and fintech. Blends UX, UI, and service design to ship zero-to-one products, improve existing services, and build design systems that scale. Comfortable in high-ambiguity environments, mentors designers, and facilitates decision-making with evidence. Open to Lead/Senior/Founding roles in health or climate sectors with opportunity to work on socially impactful projects and grow design teams.
